To Whom It May Concern:

In April 2008, Caleb Eby (Old World construction) removed a large wooden coal elevator structure from my property in Greencastle, PA. The structure was located tight against a street and about 20' from my grain elevator. Caleb and his employees worked in professional manner. It was removed in the time frame he said it would be. They were very considerate of my property and the neighboring properties.

I would not hesitate to have him work for me in the future and would recommend him to anyone needing his services.

Sincerely

A handwritten signature in cursive script that reads "Robert C. Zegger".
